A career changer who has always had an interest in new exciting technology, who is looking to transfer his experience and become a part of an ever-growing industry. Incentivised to pass on relevant skills in communication, collaboration, and teamwork, given previous experience from an operational transport background. Passionate for learning and developing new skills, where drive for success will make a real impact to any team. Always eager to improve, both in personal growth and mindset. Driven by the rush and exhilarating feeling that comes with building applications, bug fixes, and solving technical issues.
